## CAUCUSES

Members elected to serve in the next session may expect to receive a call from their respective deans for a caucus to be held Saturday, November 17, at 10 a.m. at the Colonial in Helena. This year the Legislative Council has decided not to hold an orientation session in conjunction with the caucus. There will be Council staffers available at the Colonial on Saturday to take bill drafting requests, pick up any remaining W-4 forms, and so on. In addition, representatives from the Department of Administration will be available to help freshman and other legislators who wish to sign up for the state health insurance program.

## JOINT INTERIM SUBCOMMITTEE NO. 2

## STATE LANDS

At its final meeting September 28, the Subcommittee approved the draft of LC 68 which allows the Department of State Lands to raise from \$6 to \$30 the allowable annual charge against forest landowners for fire protection with the provision that the total charge to landowners may not exceed one-third of the amount appropriated by the legislature for that purpose.

The Subcommittee recommended no change in the 16 cents an acre annual fire protection assessment against forest lands.

RECREATIONAL  
USE OF WATERS

Joint Interim Subcommittee No. 2 also finalized its recommendations on the subject of recreational use of Montana's waters:

RECOMMEN-  
DATIONS

-- Enact a bill to generally define laws governing the rights and responsibilities of property owners and the public related to recreational use of state waters, including:

(a) permitting recreational use of any surface waters, except waters while they are diverted;

(b) prohibiting, with certain exceptions, use of land beneath surface waters that do not satisfy the federal test of navigability for purposes of state ownership;

(c) confirming the right of the public to use the land between the ordinary high-water marks of surface waters that satisfy the federal test of navigability for purposes of state ownership;

(d) permitting the public to portage, above the high-water mark, around barriers in the least intrusive manner possible;

(e) restricting the liability of landowners when water is being used for recreation or land is being used as an incident of water recreation; and

(f) providing that a prescriptive easement cannot be acquired by recreational use of land or water.

-- Enact a bill to:

(a) eliminate the requirement that notice be posted or otherwise communicated for the commission of the offense of criminal trespass to land;

(b) impose absolute liability for certain criminal trespasses to land; and

(c) expand the authority of wardens to enforce the criminal mischief, criminal trespass, and litter laws on private lands being used for recreational purposes.

These proposals slightly modify the proposals developed by the Subcommittee at its previous meeting and distributed to members of the public. The Subcommittee currently is reviewing and again may be modifying the staff's drafts of the amended bills. The Subcommittee will finally approve the bill drafts and final report through a mail ballot. The sponsors of the bills will be determined after the election.
